To Whom It May Concern:

RE: **Statement of Satisfactory Performance
Project Management and Engineering Consultancy N.V. (PMEC)**

We are writing to recommend the services of Project Management and Engineering Consultancy N.V. (PMEC). We have been using PMEC's services for the past two years for supervision and oversight under our FIDIC Independent Engineer Contract for the Enabling Works – Fast Track Project at Aeropuerto Internacional Reina Beatrix in Aruba.

We have been completely satisfied with the performance and support provided by PMEC, and their staff have proven to be professional, knowledgeable, dependable, and responded quickly to our many requests. PMEC have also demonstrated a broad knowledge of local and international standards.

Based upon the foregoing, we have no hesitation in recommending PMEC; as we are sure they will bring added value and benefit to your project.

Sincerely,
Hill International N.V.

Pierre Rousseau, PMP, LEED AP
Vice President, Area Manager – Florida and the Caribbean
